Hi Ellen,

I believe I sent the email notice to you from Betty. I've attached the revised Strategic Plan Draft that you prepared with some additional comments I pulled from the Volunteer Handbook. There is a whole section in the notebook about the history, operations, of the reclamation center.

I will send you a list of talking points tomorrow for the meeting. Alan is considering the meeting we had with Luz as the first interview. I have not heard from Luz' assistant on any dates for the session she suggested with Sanitation staff. I'll check with her tomorrow.

Joanne
